Ask your questions or make your comments about the Movielens Quiz here! **Remember, one of the best ways to reinforce your own learning is by explaining something to someone else, so we encourage you to answer each**

other's questions (without giving away the answers, of course).

Some reminders:

- Search the discussion board before posting to see if someone else has asked the same thing before asking a new question.

- Please be specific in the title and body of your post regarding which question you're asking about to facilitate answering your question.

- Posting snippets of code is okay, but posting full code solutions is not.

- If you do post snippets of code, please format it as code for readability. If you're not sure how to do this, there are instructions in a pinned post in the "general" discussion forum.
